CAREER SUMMARY

I am a final year aspiring Machine Learning and Data Science enthusiast with hands-on experience in Deep Learning, NLP, and model development using Python, TensorFlow, and Scikit-learn. Seeking an opportunity to apply analytical and problem solving skills to real-world challenges.

EDUCATION

Btech(CSE-DS) | ITER,Siksha 'O' Anusandhan | 8.98CGPA 2023 — 2027

Class 12th(Science) | DAV Public School | 76.8% 2023

Class 10th | DAV Public School | 86% 2021

EXPERIENCE

Data Science Intern Apr 2026 — May 2026
ISRO-URSC

- Satellite Anomaly Detection using AI/ML, applying machine learning techniques for intelligent monitoring and anomaly analysis in satellite systems

Data Science Intern(Remote) Oct 2025 — Dec 2025
Infosys Springboard

- AI-based chatbot to handle banking FAQs, gaining hands-on experience in chatbot design and NLP fundamentals.

Machine Learning Intern(Remote) Jun 2025 — Jul 2025
Vital Skills in association with Techkriti, IIT Kanpur

- Completed a summer internship in Machine Learning, working on real-time projects involving data preprocessing, model building, evaluation, and optimization using Python, Scikit-learn, and TensorFlow.

PROJECTS

Satellite Anomaly Detection using AI/ML Apr 2026 — May 2026

- Developed an AI/ML-based anomaly detection system for satellite and spacecraft checkout data. Worked on analysing spacecraft telemetry data to identify abnormal patterns and improve intelligent monitoring of satellite systems.

Multimodal Breast Cancer Classification Dec 2025 — Mar 2026

- Built a multimodal deep learning model combining tabular, images and gene dataset for breast cancer classification. Used CNN-based feature extraction and data fusion, achieving strong performance in benign vs malignant prediction.

BankBot: Development of an AI Chatbot for Banking FAQs Oct 2025 — Dec 2025

- Developed an AI-based chatbot to automate responses to common banking queries using NLP techniques.

Dog vs Cat Image Classifier Jul 2025 — Jul 2025

- Trained a Convolutional Neural Network (CNN) to classify dog and cat images using TensorFlow. Achieved accurate results with data augmentation and dropout.

MNIST Digit Classification Jul 2025 — Jul 2025

- Built a neural network using TensorFlow/Keras to classify digits from the MNIST dataset with high accuracy.

TECHNICAL SKILLS

Programming Languages : Python, Java, C(basic)

Machine Learning & Deep Learning : Scikit-learn, TensorFlow, CNN

Data Handling : NumPy, Pandas

Database : SQL

CERTIFICATIONS

IBM Python : Cognitive Classes

AI Associate : Salesforce

Java : Lakshya Institute

Tensorflow : GeeksforGeeks

HOBBIES

Travelling, Dancing, Modelling

PERSONAL DETAILS

Date of Birth: 25 June 2005

Permanent Address: Subham Vihar 2nd lane, Somnath Nagar, Berhampur, Odisha – 760002

Languages Known: Odia, Hindi, English, Telugu

Nationality: Indian
